

Delaware Pedestrian Master Plan

What do we know about walking trends?

- 3.75 million people in the United States walk to work
 - Source: 2000 U.S. Census of Population and Housing
- Approximately 7 percent of ALL trips are made by walking or bicycling.
 - Source: The National Bicycle and Walking Study
- 18.8 percent of U.S. adults were either too busy to walk or did not have the opportunity to walk.
 - Source: 2002 survey conducted by the Bureau of Transportation Statistics
